In case the policy is Lapsed, no Death benefit is payable.

What is the frequency of premium payment?

- **Premium payment mode:**

You can choose Monthly, Quarterly, Semi-annual or Annual Premium. Monthly Premium* = 0.09 of Annual Premium, Quarterly Premium* = 0.27 of Annual Premium, Semi-annual Premium = 0.52 of Annual Premium.

* Through Auto Pay only

Service Tax & cess will be levied as per prevailing rates

Other Features:

- **Grace period:** Grace period is the period given to you from your premium due date, to pay the premium without any impact on the benefits in your policy. Grace Period for all modes is 30 days.
- **Lapsation:** If the Premium is not paid on the due date Policyholder gets a 30 days Grace Period to pay due premiums, Benefits under the policy remain unaltered during this period.

If Policy has not acquired a Surrender Value:

If policyholder does not pay the due premiums within the Grace Period, the policy shall lapse with effect from the date of such unpaid premium ('lapse date'). Policyholder will get two (2) years to Reinstate the Policy from the date of the first unpaid premium.

If the policyholder does not reinstate the Policy within the period allowed for reinstatement, the Policy shall be terminated on the completion of the period allowed for reinstatement and no benefits shall be payable.

If Policy has acquired a Surrender Value:

If policyholder does not pay the due premiums within the Grace Period, the Policy shall be converted into paid up, with effect from the date of such unpaid premium ('lapse date'). Policyholder will get two (2) years to Reinstate the Policy from the date of the first unpaid premium.

If the policyholder does not reinstate the Policy or surrender the Policy within the period allowed for reinstatement, the Policy shall continue in paid up status and the paid up value along with Vested Simple Reversionary Bonuses (if any) as on the date the policy becomes Paid Up, shall be payable either on death or on maturity of the policy.

If the policyholder reinstates the policy during the reinstatement period then all benefits will be reinstated.

- **Loans under Policy:**

Financial burdens cannot be predicted and may arise at any time. Hence this Policy offers you the flexibility to take a loan from the Company. This is only possible if all your premiums due under the Policy are paid and the Policy has acquired Surrender Value. The maximum amount of loan will not exceed 70% of the acquired Surrender Value. The loans given under the Policy are as per the Policy provisions.

- **Reinstatement:**

You have a flexibility to reinstate all the benefits under your policy within two years (subject to policy term) if your policy has lapsed or is in paid up status after the due date of the premium in default. However, the Company would require:

- a) A written application from you for reinstatement;
- b) Satisfactory evidence of insurability;
- c) Payment of all overdue premiums with interest as specified by company from time to time;

- **Reduced Paid up Value:**

If the policy has acquired a Surrender Value and has thereafter lapsed due to any reasons then the policy will be converted into paid up. Once the policy becomes paid up, the base benefits shall be reduced to a paid up value.

The Policy shall cease to participate in any future bonuses (if any) that may be declared by the Company. The Policyholder shall be entitled to Paid Up Value including the Vested Simple Reversionary Bonuses (if any) as on the date the policy becomes Paid Up and these will be paid either on death or on maturity of the policy. In case of surrender of a paid up policy, the surrender value will be as per policy provisions.

$\text{Paid Up Value} = \text{Number of Premiums paid} \times \text{Sum Assured} + \text{Accrued Bonus}$
(till date of policy becoming paid up) / Premium Payment Term

In Case of Death or Maturity, Paid up value as shown above will be paid to the nominee/policyholder

In case of a paid up policy, the benefits payable on Surrender will be the Surrender Value plus the vested reversionary bonuses as on the date the policy become paid up. The Surrender Value will be calculated as follows

$\text{Surrender Value on Paid Up} = \text{Paid Up Value} * \text{Base Surrender Value Factor}$

$\text{Surrender Value of Bonus on Paid Up} = \text{Accrued Bonus till the date of Paid Up} * \text{Surrender Value Factor for Bonuses} / 1000$

Can I surrender my policy?

We would want you to pay premiums regularly till the end of premium payment term and stay invested till maturity to get maximum benefits under the policy. However incase you are not able to pay all premiums and want to exit the policy earlier then only surrender value (if acquired) will be payable to you.

Surrender Value: The policy acquires a surrender value after the payment of two annualized regular premiums for premium payment term of 5 and 7 years and for premium payment term of 12 years the policy acquires a surrender value after the payment of three annualized premiums. Guaranteed Surrender value is calculated as a percentage of all premiums paid excluding any extra premium
